

# The Reclaimer Rig

5110 S.E. Loop 410  
San Antonio, TX 78222  
855.744.5222

## MOBILE LOW FLOW BYPASS TREATMENT SOLUTION

### COST-EFFECTIVE ALTERNATIVE TO PUMP-AND-HAUL

WaterFleet proudly introduces The Reclaimer Rig, a self-contained unit that eliminates need to pump and haul hazardous waste while mitigating odors. The Reclaimer Rig is ideal for low flow and startup treatment needs and provide reclaimed wastewater for approved beneficial reuse. Each high-capacity mobile Reclaimer Rig processes up to 3,000 gallons of domestic wastewater per day. Multiple units can be placed in parallel to treat higher flows.

## ABOUT WATERFLEET

WaterFleet is a best-in-class service provider of mobile water and wastewater utility services, and workforce relief solutions.

Using our state-of-the-art proprietary technology and trained technical staff, we solve human water needs in places where water and wastewater utilities are not available.

## WHY WATERFLEET

WaterFleet is a solutions-based company of innovators dedicated to the belief that clean, safe water is a basic human right, even in the most challenging situations. Guided by our core values, we apply a fierce determination to resolve complex technologies critical to a healthy environment and safe, productive workplace. Our purpose not only benefits the people we serve, it is a source of pride for WaterFleet team members who recognize that their work benefits the communities in which we live, work and raise our families.

## CLEAN WATER. WHERE YOU NEED IT. WHEN YOU NEED IT.

### SYSTEM FEATURES AND BENEFITS

#### SOLUTIONS

- Eliminates haul-out or on-site storage of raw sewage
- Reduces or eliminates odors
- Units can be placed in parallel to accommodate flows greater than 3,000 GPD
- More cost-effective than pump-and-haul
- Ideal for low-flow treatment and plant start-up

#### SELF-CONTAINED

- Custom, high-capacity 20 ft. enclosed trailer
- Single point electrical connection
- The Bridge - 24/7/365 remote command and fully automated control

### UTILITY REQUIREMENTS

#### ELECTRIC POWER

- 220V, 1PH, 60HZ, 60A
- Single point plug connection

#### COLLECTION AND TRANSFER

- Includes lift stations for sewage collection
- Includes all connections and single pressurized line delivery
- Secured connection points

#### TREATED EFFLUENT

- WaterFleet provides piping to customer-provided storage location
- Customer can reuse water for development activities, irrigation, or dust suppression
- Treated effluent will meet permitted limits and satisfy regulatory standards for beneficial reuse.
