TEMPORARY TREATMENT SOLUTIONS

WaterFleet operates a fleet of turnkey solutions that are readily deployable for temporary treatment requirements. Our systems are perfect for use during plant repairs and upgrades allowing you to maintain discharge compliance. The treatment solutions are rapidly deployable and easy to demobilize. This rental fee based solution allows you to only pay for the time the treatment will be needed. All solutions are capable of meeting the most stringent discharge limits and regulatory permitting and compliance standards.

RENTALS

- Temporary, short-term need for seasonal work or jobs outside your normal scope
- Easily affordable monthly rates (1–24 month options)
- Maintain treatment during maintenance and repair of owned equipment
- Treatment available up to 100,000 GPD
- Installation included
- Command & control remote monitoring 24/7/365 included
- Compliance reporting available

ABOUT WATERFLEET

WaterFleet is a best-in-class service provider of mobile water and wastewater utility services, and workforce relief solutions.

Using our state-of-the-art proprietary technology and trained technical staff, we solve human water needs in places where water and wastewater utilities are not available.
